## FERROXX<sup>®</sup> SLUG AND SNAIL BAIT

**Ferroxx Slug and Snail Bait** uses chelated iron to effectively control slugs and snails and deliver immediate, reliable plant protection to conventional growers. Ferroxx is your no worries slug and snail control product, directly replacing metaldehyde baits.

### Ferroxx is Your No Worries Product for Superior Control of Snails and Slugs

- Ferroxx provides superior efficacy in controlling all common pest snails and slugs without harming non-target organisms
- Unlike metaldehyde baits, Ferroxx has a broad label and may be used on most crops and sites
- Ferroxx has zero REI and may be used up to and including the day of harvest
- Ferroxx remains effective when wet or moist and at all temperatures
- Ferroxx is highly palatable to slugs and snails, eliminating bait-shyness
- Affected slugs and snails do not produce excess slime, so there is no mess or evidence of infestation
- Ferroxx's proprietary pellet manufacturing process provides more feeding points per acre than competing baits
- Ferroxx is rainfast and dust-free
- Ferroxx is MRL-exempt\*
- People and animals may enter the area once product is applied

*\*The active ingredient in this product is exempt from the requirement for a tolerance when used in or on all food commodities.*

### The Easy Bait

FERROXX	METALDEHYDE BAITs
One product for all crops and sites	Separate products for agriculture and T&O
No restriction on broadcast applications	Most broadcast applications prohibited
