For Aerial Application of:

Antixx Fire Ant Bait, EPA Reg. No.
67702-56

FIFRA 2(ee) Recommendation

FOR DISTRIBUTION AND USE ONLY WITHIN THE STATE OF TEXAS

FIFRA Section 2(ee) Recommendation: This recommendation is made as permitted under FIFRA Section 2(ee) and has not been submitted to or approved by the EPA. This product bulletin should be in the possession of the user at the time of application of the product. All applicable directions, restrictions and precautions on the EPA registered label are to be followed.

Directions for Use

Broadcast applications may be made by aircraft. Apply uniformly using appropriate, calibrated equipment, within the application rates on the EPA label. Do not apply when weather conditions favor drift from treated areas.

This 2(ee) recommendation expires December 31, 2023

TEXAS DEPARTMENT OF AGRICULTURE COMMISSIONER SID MILLER

Dear Anda Beach:

The pesticide registration program has completed our review of your proposed FIFRA Section 2(ee) Recommendation for:

Aerial application of Antixx Fire Ant Bait (EPA Reg. No. 67702-54, TDA Account No. 0802098) to control Red Imported Fire Ants in pastures and rangeland, other suitable non-crop sites specified on the label in the state of Texas.

The proposed recommendation appears to be consistent with Section 2(ee) of FIFRA. We encourage you to continue to work toward including these label revisions on the Section 3 label.

This approval is effective as of this date and expires on December 31st 2023, but can be cancelled anytime by either party. If we can be of further assistance, please let us know.

Sincerely,

Kevin D. Haack
